

Your team deserves more than Inspiration...

Jaz has a way of making you believe you can do the impossible.

Jaz's story could be viewed as a tragedy of abuse, neglect and poverty. Instead, she focuses on the life-altering impact a handful of everyday heroes had on her trajectory. Through celebration and provocation, she invites audiences into deep narratives that translate beyond her own powerful journey of overcoming obstacles, to the stories of those whose lives we seek to impact. Jaz speaks with humility, honesty and humour and has a disarming ability to persuade people to let their guard down. In a nutshell, Jaz is transformational.

Whole School Staff, Senior Leaders, Middle Leaders, Teachers, Teaching Assistant's and Support Staff, join us for a thought provoking, challenging and truly inspiring day with Jaz Ampaw—Farr.

Education is about relationships.....

You came into education wanting to make a difference, but the increasing pressure from the system can make this feel nigh on impossible.

It's exhausting.

The truth is, your impact can't be captured on a spreadsheet. You are so much more than your latest data collection shows. I owe my life to a handful of educators and I repay them by helping leaders, teachers, parents and students to reconnect with the power they have to being a catalyst for change.

Monday, 2 November 2020
