

Year 1 – Home Learning

Friday

Maths – Subtraction

Today we are going to be solving subtraction word problems, for example, I have 13 sweets and I eat 5 of them, how many do I have left?

Can you read the word problems and write out the number sentence for each one and use your 100 square to work out the answer.

English – Guided Reading

As Friday's would usually be our Guided Reading lesson we have given you a little comprehension task all about Rainbows!

There are three to choose from of varying ability (three stars being the most challenging) where you need to read the text and answer the questions afterwards.

Phonics

If a word has one syllable, one vowel, and ends in one consonant then we need to double the last consonant before adding –ing! Can you watch the video to explore this a little more- https://www.youtube.com/watch?v=EmO1KoPY5aU&ab_channel=EasyTeaching and then have a go at doubling the last consonant and adding –ing to the words on the sheet.

Design Technology – Sun Cream

Recently we have been learning all about 'Sun Safety' and exploring different designs of sun cream. We have learnt about the different factors and also how to apply sun cream effectively.

Can you design your own sun cream bottle with a design on the front and information on the back about the sun cream with instructions of how to apply it!
